# solar industry GROWTH

(reports from The Department of Energy // 2014)

Solar employment has grown by 86%  
in the past five years alone.

20x

The solar industry is adding  
workers at a rate nearly 20  
times faster than the overall  
economy.

1/78

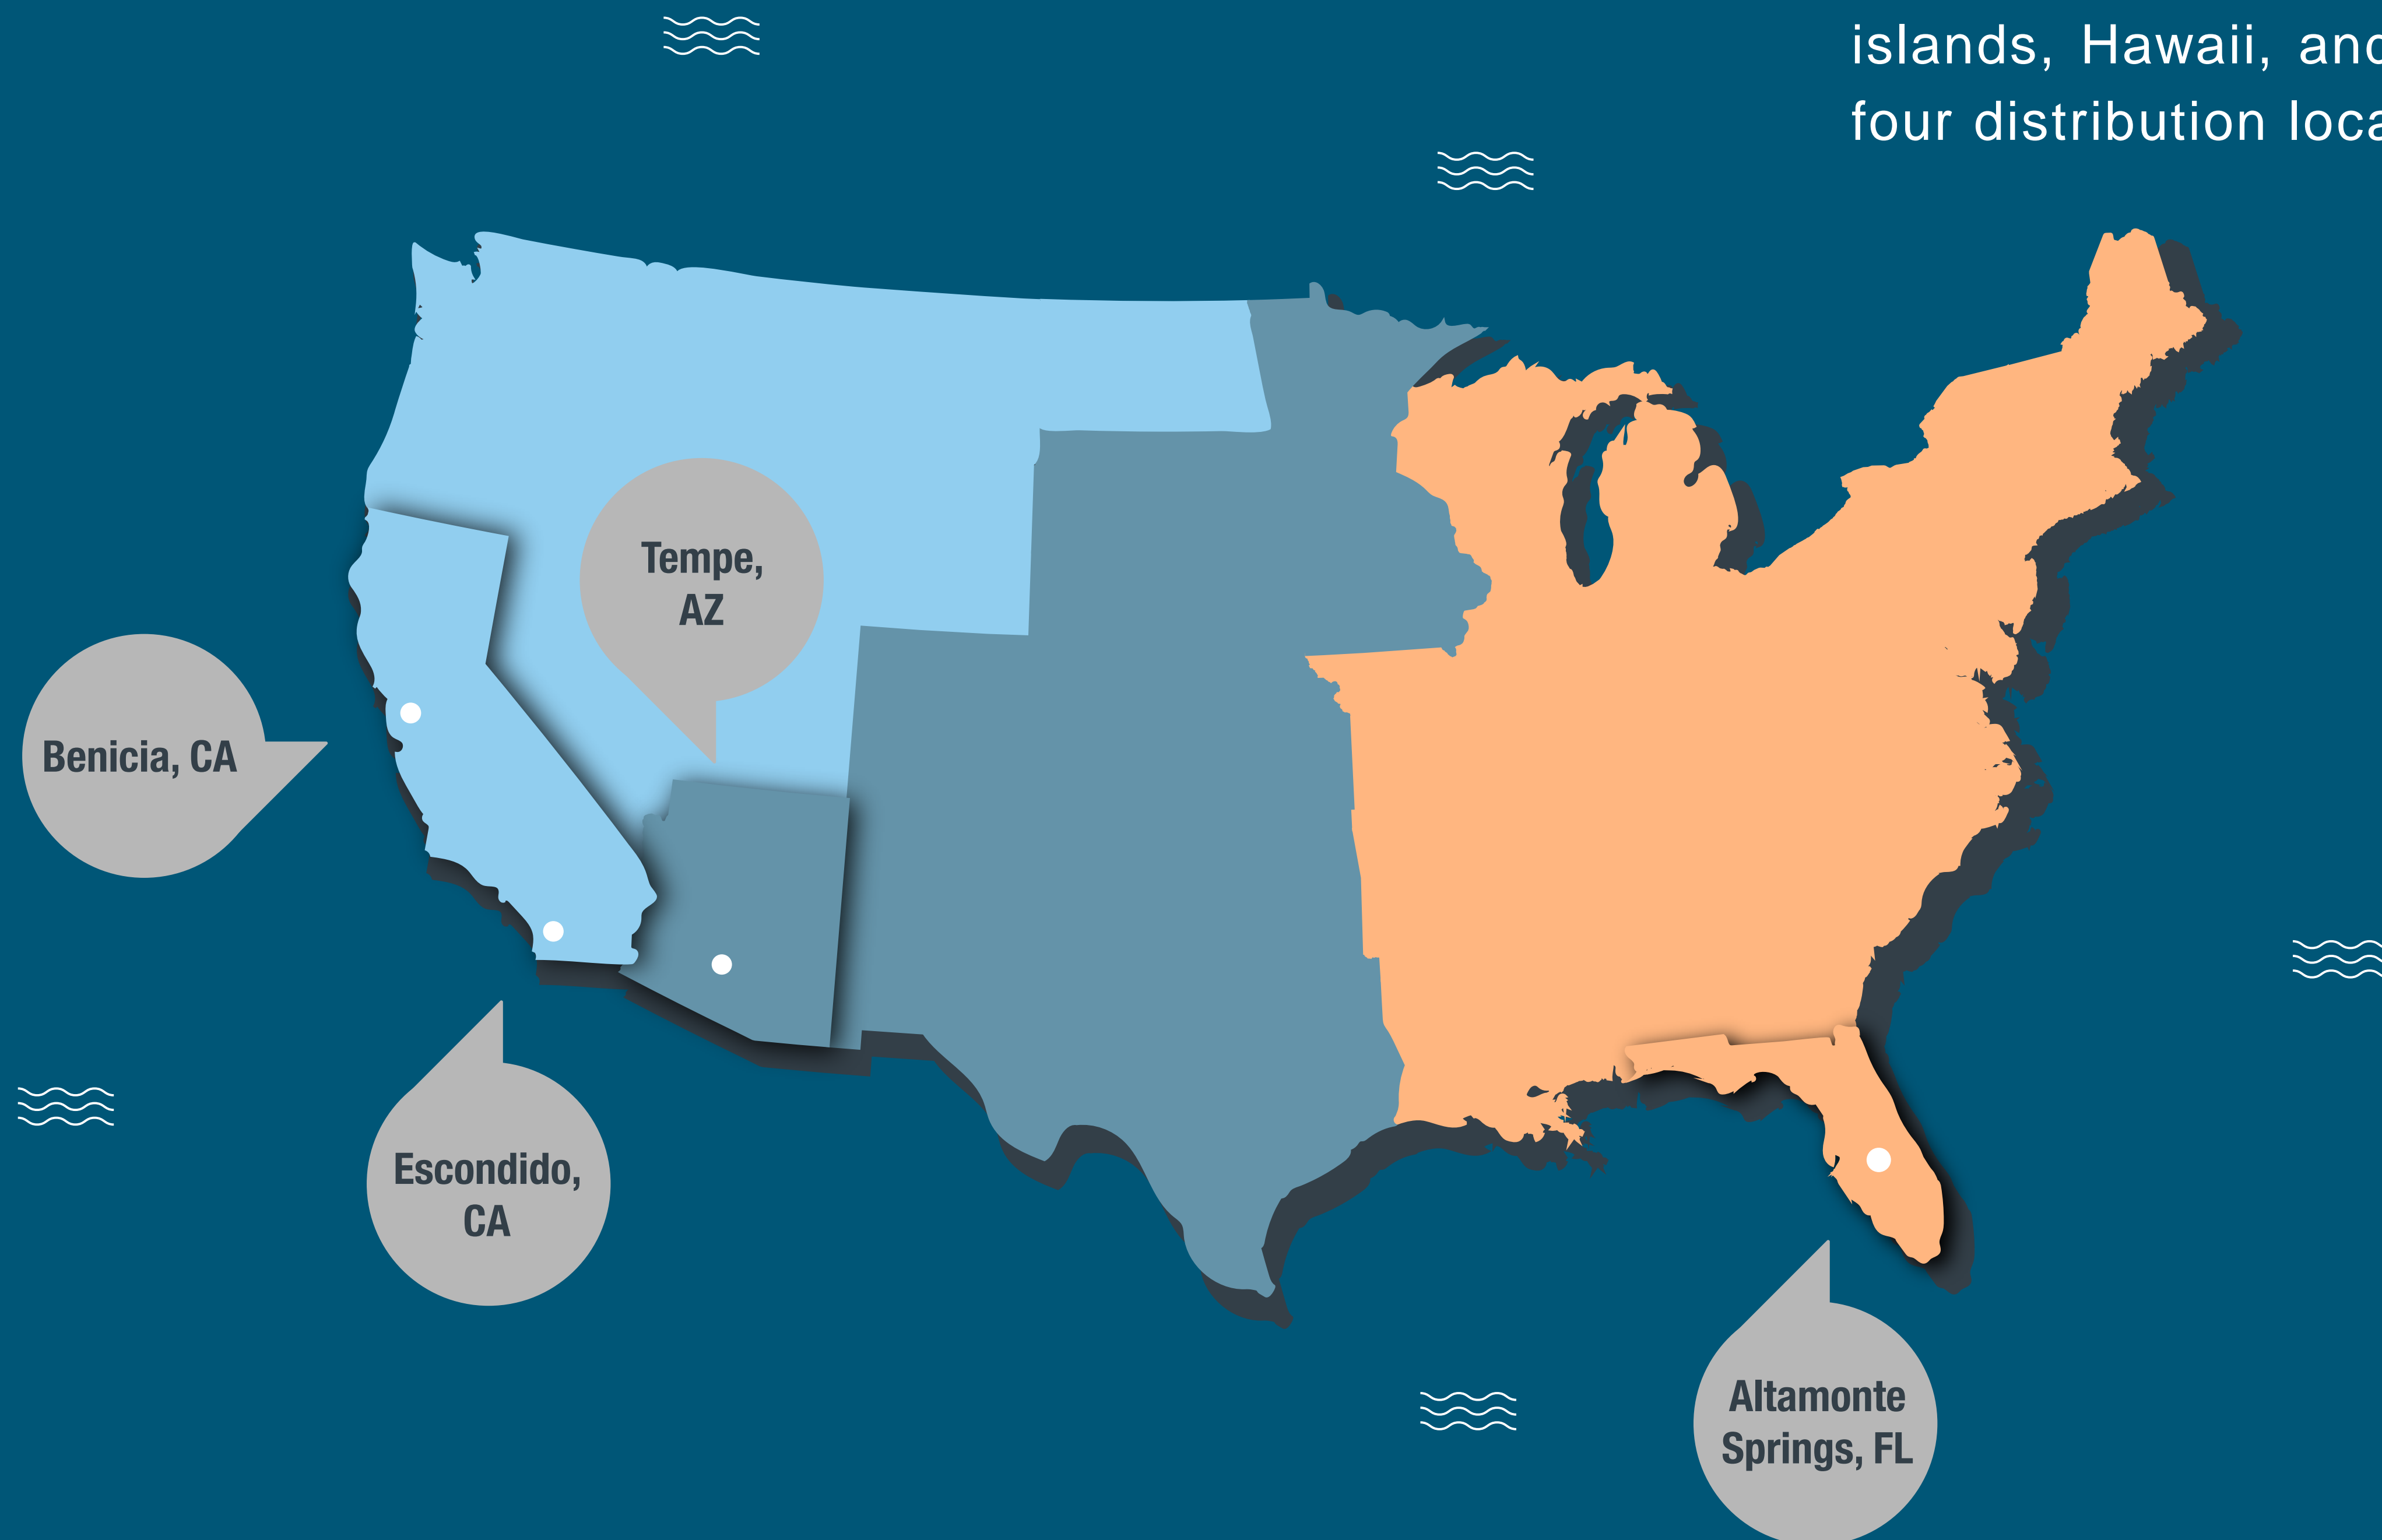

new jobs created in the  
U.S. over the past 12  
months were created by  
the solar industry.

---

# distribution centers

We provide timely delivery to anywhere in the U.S. as well as the Coribbean islands, Hawaii, and Canada from our four distribution locations.

# manufacturing

Our technologically advanced patented solar pool heating and hot water design makes our panels one of the most efficient, high quality solar panels on the market today.
